

GENERAL DIRECTIONS FOR SHAMPOOING

Vacuum carpet area thoroughly to remove surface soil. Use heavy duty up-rite vacuum or mechanical pile brush.

Pre-spot all stained or heavy grease areas with your normal spotting chemicals. (Do not use strong penetrating solvents.)

Mix 4-oz. BRUTE 32 per gallon of water (1 part BRUTE 32 per 32 parts water). (120 to 145 degrees for best results). Use in solution tank. Prevent over wetting. Use only enough water to obtain sufficient foam. Let the foam do the work.

Single coverage is normally enough. Traffic areas and excessive soiled areas will take double coverage. On a heavy greasy area such as kitchen entrance pick up wet suds with wet/dry between coverages.

Prior to drying, set pile in one direction with nap brush. Do not set furniture on damp area without furniture protective pads.

BRUTE 32

Carpet & Upholstery Shampoo

Ph 8.0 at dilution

1 Gallon (3.78 Liters)

CAUTION: Keep Out of Reach of Children

BRUTE 32 COMMERCIAL SHAMPOO FOR PROFESSIONAL CLEANERS

PRE-SPRAY ADDITIVE: Mix 2 oz. BRUTE 32 per gallon of pre-spray formula for superior lubrication and suspension characteristics. Apply using a pressure sprayer or rotary scrubber. Allow 5-10 minutes for chemicals to work before rinsing with water extraction equipment.

Dispose of used or unused mixed solution in accordance with applicable Local, State, and Federal regulations.
