

FOR PROFESSIONAL USE ONLY

**DIRECTIONS FOR USE:**

Remove is a powerful non-ammoniated hard surface cleaner that can be used on any surface not harmed by water.

Apply diluted Remove for general cleaning by spraying, then wipe over the surface with sponges, rags or other similar materials.

For floor surfaces such as tile, terrazzo, sealed wood floors, stone floors such as granite or marble, resilient flooring such as linoleum apply diluted Remove with a mop, brush, or floor machine as necessary.

**GENERAL PURPOSE CLEANER:** Use to clean painted surfaces, floors, door frames, walls, and fixtures. Dilute with 10 parts water and spray or wipe on surface to be cleaned.

**FLOOR POLISH STRIPPER:** Apply and allow the diluted solution to soften the polish. Scrub to break up the softened polish. Pick up the dissolved polish solution and rinse immediately. Do not allow floor to dry before rinsing to avoid the polish resetting.

# REMOVE

## HARD SURFACE CLEANER SPOT REMOVER

**BIODEGRADABLE - CONCENTRATED
