

**FOR PROFESSIONAL USE ONLY**  
Concentrated Product - Dilute Before Using

**DIRECT APPLICATION:** Dilute ELIMINATOR with water to achieve penetration. On dry areas, dilute 1 to 1 with water. On already wet areas, ELIMINATOR may be used full strength.

**INJECTION:** For sub-surface treatments, ELIMINATOR should be injected full strength.

**FOGGING:** For treatment of airspace, ELIMINATOR may be used in a fogger suitable for use with water based solution. Dilute 1 to 1 with water. Wear a respirator.

**ADDITION TO CLEANING WATER:** In portable extraction equipment, add 2-4 ounces per gallon of water. In truck-mounted units, add ½ gallon of ELIMINATOR to the chemical jug. ELIMINATOR can also be added to hard surface cleaners, shampoo, etc. for deodorant action.

**WARNING: Disposal Requirements**

Certain ingredients in this product may be deleterious to fish and plant life. Rinsate containing this product must be disposed of only as authorized by state and local agencies. It may be unlawful to dispose of rinsate containing this product where it can pass into natural waters, such as by disposal into a storm drain rather than a sanitary sewer.

# ELIMINATOR

## Odor Counteractant

### EFFECTIVE ODOR CONTROL

PET & URINE • SMOKE • FIRE

CHARRED WOOD

BACTERIA & FUNGI ODORS

MILDEW • GARBAGE • DEAD BODY

SKUNK • VOMIT • STALE AIR

NET CONTENTS: 1 Gallon (3.78 Liters)

**CAUTION:** Keep Out of Reach of Children  
see side panel for additional precautions

ELIMINATOR is a multi-phase odor neutralizer for control of organic malodors. The complex formula contains several different odor fighting mechanisms providing a wider range of effective deodorization than the traditional "single dimension" products.

**MULTIPLE ACTION NEUTRALIZERS** penetrate, dissolve, absorb and encapsulate odor causing impurities and chemically neutralize them. ELIMINATOR will provide continuing release of odor counteractants for several days in addition to having a pleasant, lingering, air freshening "fresh-n-clean" scent.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed, avoid contact with eyes. If swallowed, induce vomiting, call a physician. In case of contact with eyes, flush eyes with water. Avoid contamination of food. Wear a respirator while fogging.
