

FOR PROFESSIONAL USE ONLY
Concentrated Product - Dilute Before Using

Dilute using 2 ounces per 5 gallons of water. Mix directly with cleaning water.

The amount used will vary slightly from area to area depending upon degree of soiling and hardness of water.

Normal dilution will handle up to 10 grain hardness. For areas with more than 10 grain hardness, increase amount of Neutra Kleen.

NEUTRA KLEEN

Neutral pH Cleaner

BRIGHTENERS ADDED

WHITES • PASTELS • WOOLS
COTTONS

NET CONTENTS: 1 Gallon (3.78 Liters)

CAUTION: Keep Out of Reach of Children
DO NOT TAKE INTERNALLY

NEW IMPROVED NEUTRA KLEEN

Use this low pH cleaner in your "Steam" unit in place of your standard cleaning powders when browning or bleeding is likely. Neutral pH discourages browning on jute-backed wools, pastels, whites, cottons and all light colored carpets and upholstery.

Ideal for gentle, effective cleaning of upholstery. Increased surfactant content allows mild, safe, organic cleaning of problem fabric without dependence on alkaline salts.

- BRIGHTENERS
- WATER SOFTENERS
- WETTING AGENTS
- INCREASED SURFACTANTS
