CGC

Knapp CGC is a glass cleaner that is not only safe to use but is also highly concentrated. This makes it the prudent choice.

- Biodegradable. Environmentally friendly.
- Concentrated. This makes it economical.
- Easy to use. Requires no rinsing.
- Safe. Contains no harmful ingredients.

Directions for Use:

Because Knapp CGC is highly concentrated, dilute ¼ to 1 ½ ounces per gallon depending on the severity of the soil. Spray diluted solution directly onto glass or mirror and remove immediately with clean squeegee, paper or cloth. For use with foam applicator on a wide variety of hard surfaces (other than glass), dilute 1 part Knapp CGC with 5 parts water. Use to clean windows, mirrors, plastic windows, formica, plastic tile, ceramic tile, chrome fittings, desk tops, freezers, appliances, windshields, plastics, porcelain bathrooms, stainless steel, display cases, leather, and more.

First Aid: Avoid contact with skin and eyes. For eye contact, flush with water, and if irritation persists, contact a physician. If accidentally swallowed, induce vomiting, and contact a physician immediately. Please refer to the Material Safety Data Sheet for detailed safety information and procedures.- In case of emergency call 1-800-255-3924.

Only for Sale to, Use and Storage by Servicepersons.
