Knapp Pink Lotion Soap is formulated with only the most gentle ingredients making it extremely mild to your skin, yet tough on dirt. It has a neutral pH formula that contains agents that replace natural skin oils normally washed away by regular soap. Knapp Pink Lotion Soap is great as a head and body wash. It works in all liquid soap dispensers - it will not run, gel or clog. Use it in health clubs, rest homes, restaurants, and industrial plants. Because it is liquid, there is no waste as in bar soaps.

**DIRECTIONS: Hand Washing:** Use as is in almost any dispenser. Rinse hands with warm water to remove any loose soil. Squirt a small amount onto the palm of your hand and work into a lather. Make sure to clean under your fingernails. Rinse and repeat if necessary. Dry with a clean cloth or paper towel.

**Body Washing:** Use as is in almost any dispenser. Shower with warm water to remove any loose soil. Squirt a small amount onto the palm of your hand, wash cloth or lather puff and work into a lather. Scrub entire body. Rinse and repeat if necessary. Dry with a clean terry towel.

**First Aid:** Avoid contact with eyes. For eye contact, flush with water. If accidentally swallowed, induce vomiting, and contact a physician immediately. Please refer to the Material Safety Data Sheet for detailed safety information and procedures. In case of emergency call 1-800-255-3924.

**Only for Sale to, Use and Storage by Servicepersons.**
