

Product Specification Sheet

Q G F

Quick Gloss Finish Acrylic Floor Polish ULTRA HIGH SPEED FLOOR FINISH

Durable and Strong with Spectacular Gloss
Exceptionally Fast Drying for Reduced Maintenance Time
Excellent for Use with Super High Speed Buffers and Spray Buffing

QGF is an outstanding all-purpose acrylic finish that is exceptionally easy to apply and "goof proof". It has exceptional leveling properties no matter how thick or thin the application. It is an exceptionally fast drying finish for reduced maintenance time.

QGF provides a hard finish and is the perfect choice for areas where high levels of foot traffic are expected, or where sand and dirt are often present on the floor or where there is heavy wear on the floor due to foot traffic, equipment wheels or frequent movement of furniture.

DIRECTIONS AND APPLICATIONS

Use *QFS (Quick Finish Stripper)* to ensure that all old wax, finish resin and soil have been removed. Using a scrubbing machine with stripping pads will expedite cleaning. Rinse thoroughly and let dry. Using only clean equipment, apply finish in a thin, even coat. Do not rub! Another thin coat is recommended for added gloss and protection. Allow 15-20 minutes for drying before applying a second coat.

MAINTENANCE

Daily cleaning: Sweep as necessary to remove gritty soil.

Dirty Floors: Clean with 2 to 4 ounces of a neutral floor cleaner per gallon of water.

Spray buff as needed to maintain floor high gloss appearance.

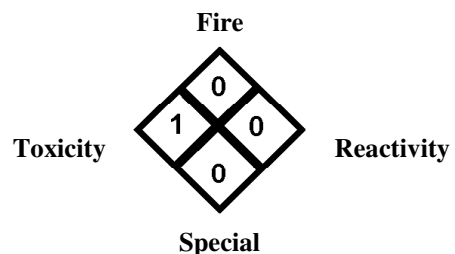

FIRST AID

Avoid contact with eyes. For eye contact, flush with water repeatedly. If accidentally swallowed, DO NOT induce vomiting and contact a physician immediately. Please refer to the Material Safety Data Sheet for detailed safety information and procedures.

PHYSICAL CHARACTERISTICS

pH:	8.1 to 8.9
Weight per gallon:	8.6 pounds
Coverage per gallon:	1,200 to 1,800 ft ²
Color	White Translucent
Odor	Bland
Packaging:	1 gallon plastic bottles 5 gallon plastic pails 55 gallon plastic drums
